ABOUT MY BOTIQUE

We love what we do and are proud of the results our clients receive from our treatments. We are specialists in the science of anti-aging and you will be treated with the highest level of care, only being exposed to treatments and products that we would use on our own bodies.

Our philosophy is based on providing you with personalised advice and the highest level of technical competency to achieve your desired results. We take a holistic approach to beauty; our professional and highly experienced staff will combine the latest beauty treatments, skin and lifestyle advice to tailor a treatment plan that is right for you. Our bespoke treatment plans are focused on balancing our technical and medical knowledge to provide you with the best possible results.

LASER THERAPY

Pigment Removal

The SRA Photofacial is a laser treatment which rejuvenates the face on many levels, but primarily works to remove pigmented skin such as age spots, hyper pigmentations, freckles and vascular lesions such as broken capillaries and roseacea.

Taking approximately 15–20 minutes to treat the entire face, results are seen instantly and will also improve over the course of a week. Your pigmented skin will darken and may become slightly “crusted” over the days following the treatment, however, this means that ever un-pigmented skin is coming through and the treatment was successful.

Acne Scar Reduction/Resurfacing

A high dermal impact with very little dermal disruption treatment suitable for all skin types, directing RF energy to the skin in the form of a matrix.

Healthy skin surrounding the matrix dots work to accelerate the healing process of the skin by producing new collagen and healthy skin cells after the treatment. This type of treatment can also be used to rejuvenate other areas of the body—such as the neck and décolleté.

DERMAL FILLERS

A Dermal Filler is an injectable gel acting as a skin “filler” to gently restore, rejuvenate and replenish skin structure and volume for a more youthful appearance.

Dermal Fillers can:

- Enhance lips by increasing volume and definition
- Treat facial lines and wrinkles (eg. frown lines and nasolabial folds)
- Restore volume to your cheeks, chin and tear troughs
- Define and/or correct your nose bridge
- Improve the hydro balance and moisture content of areas such as your hands, neck and décolleté

Enhance your upper face and lift eyebrows Whether it's subtle volume replacement, definition or a total face rejuvenation we have something for all budgets and concerns. Prices start from as little as \$389 and lead up to our more deluxe enhancements at \$1990.

PLATELET RICH PLASMA PRP

A skin rejuvenation treatment used to stimulate the inflammatory cascade and help to heal the body. Administered using a similar technique to many other types of filler treatments.

The treatment involves taking a small blood sample which is then spun using a centrifuge to part the plasma and platelet portion of the blood using a separator gel. The PRP portion is then injected back into your skin, whilst under topical local anaesthetic, to stimulate new collagen production and revitalising your cells.

PRP can treat the following areas:

- Around the eye area
- Cheeks and mid-face
- Jaw line
- Thinning skin on the neck
- Back of hands
- Décolletage
- Scalp for thinning hair
- Other areas such as knees, elbows upper arms, post-weight loss tummy and post-baby tummy.

HART

Hyaluronic Acid Replacement Therapy

HA's are a naturally forming sugar protein found in the body. Young skin is smooth and elastic because it contains high concentrations of HA. As we grow older we lose the ability to maintain the same concentration in the skin, and as a result the skin becomes drier and more prone to wrinkles.

Hydrobalancing the skin increases its water holding capacity, maintains elasticity and keeps the skin firmer and hydrated. Perfect for face, neck, décolleté and hands. 4 to 8 ml annually is recommended.
